The four-hour videotape includes a briefing on plans for closed captioning of TV programs and a panel discussion among representatives of the broadcast industry, the Public Broadcasting Service and the Federal Government. A NOTE FROM TRAVELWORLD

In a recent meeting, our Travelworld representative and Gallaudet policy-makers from accounting and contracts agreed to continue to permit staff and students to use the College Hall pick-up system for personal travel. At this time, travel order numbers distinguish business travel, which is paid for by the College, from personal travel, paid for by the individual. We emphasize, however, that this distinction must be made along with the reservation to avoid confusion. Simply give the travel order number, or say personal travel and everything else will be handled by Travelworld and accounting. They're so sharp in Room 8 that even if you don't tell them "personal," they'll catch you anyway! So make it easier for all of us by giving us all the necessary information. Happy traveling!
